

Clinical Credentialing Assessment

Paramedic: _____

Date: _____

Evaluator: _____

Scenario: _____

Start time: _____

End time: _____

Leadership and Scene Management	
4	Clearly took charge, effective team leader, managed the scene appropriately
3	In charge, responsible for decision-making, minor hesitations or lack of confidence
2	Ineffective attempts at leadership, did not confidently make decisions
1	Did not take charge, ineffective leadership, unacceptable scene management
Patient Assessment	
4	Completed a thorough assessment of patient, demonstrated understanding of disease-specific findings
3	Completed a primary survey, acceptable secondary assessment, minor oversights or hesitations
2	Incomplete or disorganized patient assessment
1	Neglected primary survey or critical reassessment of patient
Patient Management/Critical Thinking	
4	Made appropriate treatment decisions, timely interventions, anticipated further needs
3	Appropriately managed patient's condition, however some room for improvement
2	Disorganized management, required prompting from partner(s), hesitant to act
1	Failed to competently manage the patient, neglected one or more critical actions for the scenario
Communication and Professionalism	
4	Maintained professional behavior with patient and team, encouraged feedback, communicated clearly
3	Appropriate interactions with patient and partner(s), however some room for improvement
2	Mostly ineffective communication, required clarification, lack of empathy or attention to others on scene
1	Inappropriate comments, disrespectful towards patient or partner(s), ineffective communication

Total score: _____ Out of 16 possible

- Outcome: ☐ Pass (score of 12 or higher)
☐ Retest same day (different evaluator)
☐ Fail (refer to clinical oversight committee)

Comments (required for a score of 1 or 2 in any domain):
